

# STUDY AND REVISION S4 - S6 RESIDENTIALS

## at Abernethy Adventure Centres

Our Study and Revision residentials incorporate a healthy mix of supervised study time in our light, airy conservatories or study lounges and instructed outdoor activities. Our centres provide an ideal environment, free from the home-life distractions students' face while studying at home alone, and our adventure activities can be incorporated into your visit to help motivate and energise pupils throughout your residential.

These residentials are excellent for progressive thinking schools who want to:

- Allow their teachers to help students combat low productivity and procrastination
- Support students as they face the challenges ahead
- Raise the attainment level of each and every pupil
- Engage pupils in relevant subjects
- Motivate students to study in exchange for 'playtime'!

“(The residential)  
was a resounding

**SUCCESS** with all pupils achieving  
**EXCELLENT** exam results.”

All of our programmes are flexible and can be tailored to fit your needs. Pricing will be dependent on activity sessions included. An example of a sample programme could be:

Friday: Arrive in time for dinner, followed by study time, supper and a film.

Saturday: A mix of study time and activities from 9am-5pm followed by dinner, evening study and a bonfire & BBQ.

Sunday: A mix of study time and activities, departing from 4pm.
